

Science & Education Internships

Want to make a difference for the environment and add to your income at the same time?

Work with National Park Service education, research rangers and high school students. Present hands-on learning experiences participating in the **Each One, Teach One** educational outreach program. As a student mentor you will conduct field science and environmental education to communicate the significance of a rare and endangered Mediterranean ecosystem in our expanding urban community.

Benefits:

- ~Get paid a six-dollar per hour stipend, and college credit.
- ~Build a foundation for future success in the teaching or research professions.
- ~Gain in-depth professional training and work experience.
- ~ Increase your knowledge about National Parks and insight into environmental career opportunities.

How to Apply:

Send letter of application, resume, three references and unofficial transcript by e-mail to sheila_braden@nps.gov or regular mail to:

Sheila Braden, National Park Service
Each One, Teach One
Internship Opportunity
